To whom it may concern,

Bess Concrete Pty Ltd has been using Carsburg Earthmoving for over 20 years. During that time Carsburg Earthmoving have always proven to be reliable and professional. Their ability to provide multiple services and flexible hire terms for both machinery hire, and sand and gravel supply has added value and reliability to our business and clearly sets them apart from their competitors.

Neil and Rodney Carsburg are always available to offer their experience, advice and value engineering to our business; which helps keep Bess Concrete a competitive choice in the industry.

I would highly recommend Carsburg Earthmoving to anyone looking for an earthmoving contractor who provides a reliable and professional high value service.

Regards

Simon Newton
Construction Manager
Bess Concrete Pty Ltd
